CENTRAL LIBRARY

The Central Library has achieved its vision of creation and dissemination of knowledge through ICT Which in turn endeavors and empowers faculty and students to achieve excellence in the knowledge paradigm of the country. The Books in our library are in the process of getting bar coded for automated circulation. Apart from library automation, SSIET Central Library acquired access to many online databases through subscription. COLLIB Library Software for Library Automation. Inspro Plus is in progress to manage the digital contents and to be providing Intranet Library Facilities to the user.

Books:

The Central Library is called as a store house of knowledge and gives you access to huge collections of Books. Our Central Library has nearly 40,000 Volumes of 12,000 titles in Engineering and Technology Field.

Journals:

Our Central Library subscribed 14,223 Online Journals through Library Consortium for User category (Engg & Technology, Business & Management, DOA-Journals, Pharmaceutical and Dental)

Through various services like Newspapers, Magazines, Books by international and national authors, Audio books, eBooks, ejournals and online databases, word processing & Internet. Our Central Library is fulfilling the educational thrust to each and every user.

SREE SASTHA COLLEGE OF ENGINEERING

Chembarambakkam, Chennai -123

Greetings to all!

In the annals of our institution a new era is going to be carved, as the first set of our students has already been successfully graduated, let us have a fresh approach from this New Year and make all our students eligible for placement in reputed organizations and share the joy of success. I gladly look forward to that day as we would be reaping the rewards for the hard efforts we have put in all along.

Every situation and circumstance we encounter in life provides us with a choice. We have a choice to approach life with a 'glass is half-full' or a 'glass is half-empty' attitude. Life is full of opportunities and obstacles; the only difference is our point of view. Optimism has the ability to reveal a rich possibility even in the darkest of situations. As optimistic we have power to change our perspective, our attitude and how we approach our problems. Let us all work together for setting a wonderful tradition through our sincere, and concentrated efforts. Let us not rest until we reach the target. Let us not give up our faith in positive approach. Wish you all success.

Dr.S . Arul M.Tech., Ph.D.,

Professional Body or Association Membership

The benefits of membership in professional bodies or associations are very well known. Keeping this in mind, Department of Mechanical Engineering has become a member in the following major professional bodies.

1. SAE (INDIA)
2. Indian Institute of Production Engineers

Of the above two, the annual membership fee for SAE (India) is nearly one lakh rupees. The annual membership started from September 2013.

* SAE (India) is a wing of SAE International, through this membership faculty and students of Mechanical Engineering may take part in the competitions conducted by this association, participation and success in these events are highly appreciated by Mechanical and Automobile industries. This membership is primarily for knowledge updation. Hard copies and soft copies are sent periodically to all the members.

* Indian Institute of Production Engineers. The annual membership started from April 2013.

CHEMBARAMBAKKAM, CHENNAI-123

PRINCIPAL'S MESSAGE

It is my privilege to acknowledge that we aim at creating all rounded personality in our students. The holistic approach of our institution is to guide and lead our students to achieve success professionally and socially in their chosen career path. We also aim at identifying the hidden skills, developing the personality, inculcating human values and help our students to emerge as employable technocrats. We have continuous integration with industries through in-plant training, campus interviews and off-campus interviews in all the disciplines. This will enable the prospective students to be technically qualified professionals fit enough to face the present competitive world. I wish them all success.

SREE SASTHA COLLEGE OF NURSING

CHEMBARAMBAKKAM – CHENNAI 123

Principal's Message

Quality is never an accident. It is always the result of intelligent effort.

Quality of care is a process for making strategic choices in health status. Nurses are integral participants in collaborative multi-professional modes of care designed to improve patient outcomes. So we are moving forward to meet the challenges of the nursing profession by recruiting eminent and experienced faculty members. We are stepping ahead with a 4th year B.Sc., nursing and started Post Basic B.Sc., Nursing programme in our college.

Nursing education has the capability to address the critical issues that face the nation's current health care system. The good news is that nursing has the answers to the predominant health care dilemmas of the future. There is increased attention to the issue of safety in the care of patients in all age group. Risk reduction strategies are presented to the ultimate goal of safe health. Keeping patients safe while in the care of nurses is a fundamental component of contemporary nursing practice. We aim to recognize the modern techniques for the identification of risk, provide quality patient care outstanding nursing education and in promoting research that meets the societal needs.

SREE SASTHA COLLEGE OF EDUCATION

CHEMBARAMBAKKAM, CHENNAI -600123

FROM THE PRINCIPAL'S DESK

The teacher and school coordinators must accept the challenges to create supportive conditions which will foster an innovative use of technology in education. In fact, the concepts we teach are the same as the ways have been but technology will make the delivery much better. It is essential for a teacher to keep pace with the technological advancements on a continuous basis. There is no reason to become disheartened about the invasion of technology in education. Remember, change is the law of nature. Education demands teaching and learning happen in a loving and caring atmosphere with a differential approach and extended support. The provision of support services in a main stream class room highly depends on teachers. Teachers need to be sensitized towards the educational needs of students. This is inculcated through our students by appropriate teaching methods at our college to face the changing scenario
